To: Tobias Rehmann <tobias.rehmann@uni-kassel.de>

Dear Dr. Rehmann,

on behalf of the steering committee it is our pleasure to invite you to deliver an invited keynote talk at PhotonicsConnect 2026, Barcelona, 8–10 September 2026.

We would like to propose the title „Integrated Photonic Sensing at Scale“, based on your recent work, for the opening session on 8 September. The slot is 40 minutes plus discussion.

As an invited speaker your registration is charged at the reduced invited speaker rate of 380 EUR. Unfortunately our budget does not allow us to cover travel or accommodation this year; we hope your institution can support your participation.

Please let us know by 15 June 2026 whether you accept.

With best regards,
The PhotonicsConnect 2026 Steering Committee
